### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: Applicant has amended each of the independent claims to include the recitation that the means for moving the member effectuates movement so as to change the angle of incidence of the light signal relative to the member. This is clearly not the case in the Tayebati et al reference, as the structural design of that patented device provides only for lateral (horizontal), not angular, movement of the member. It would not be possible to have any movement of the member in Tayebati et al which results in angular change of the light signal relative to the member. After extensive additional searching by the Examiner, Tayebati et al continues to be the closest prior art known. In view of the amendments incorporating patentably distinguishing features into the independent claims, with the closest known prior art thus having been overcome, and with the previous 35 U.S.C. § 112 claim problems having been obviated by applicant's response, this application is now allowable. Claims 1-34 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351.
